Complete profile

You will now see the following and this page is very long so make sure you scroll all the way down to fill in your details. We will show it here in a few parts.

1 Orange - Only with premium profile

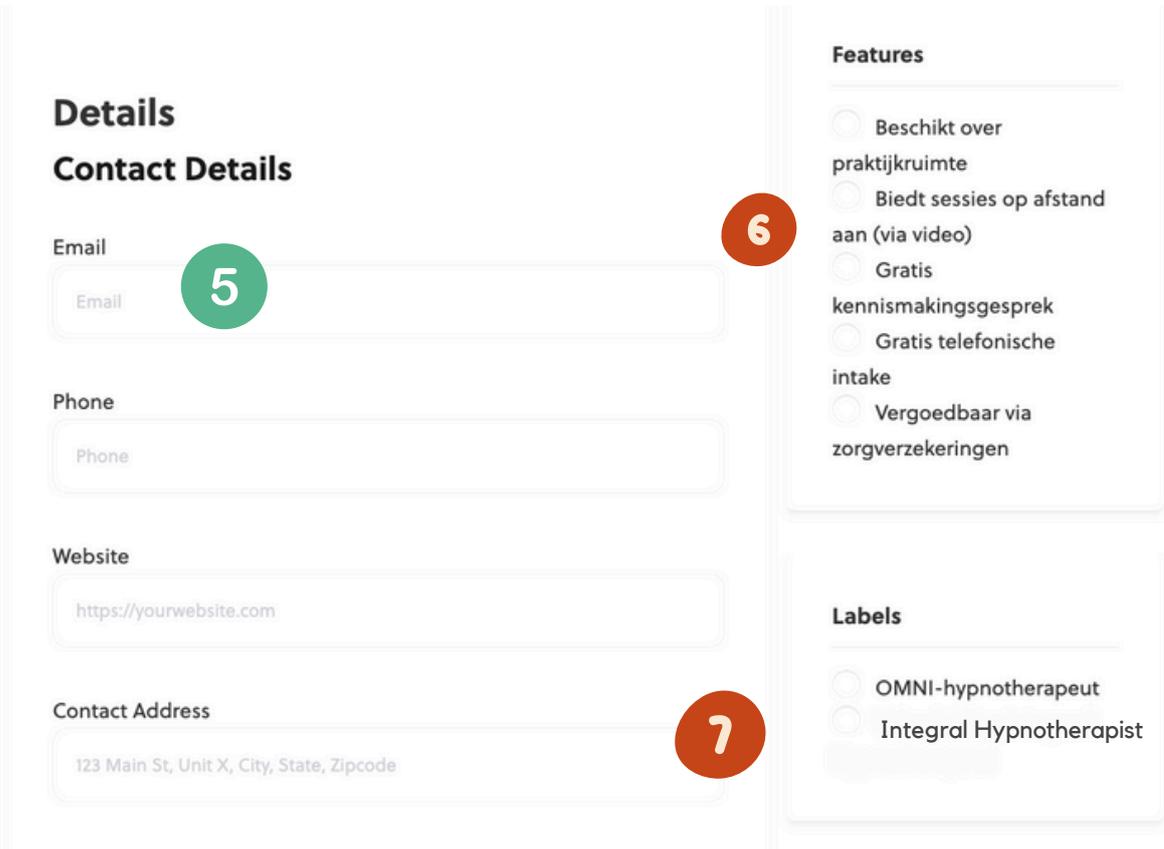

Jouw dashboard

1. Enter your Company and/or name here. If you want to be found on both, I would fill in both.
2. Basic profile 300 characters and premium profile 1000 words of text. You can use formatting.
3. These are the address details that will be on the map. You only need to fill in the address and location. DO NOT FILL IN ZIP CODE, after that click once on the map. Check if you are now listed in the right location on the map. You will see Locations and tags on the right, **we do not use those**.
4. Basic profile 1 category. Premium profile: Here you can select a whole selection of categories. You are free to choose which ones. Note: The basic subscription allows the selection of max. 1 category. Look at your profile to see what it looks like. You can check all, but it will not seem credible to the client. There are main categories and subcategories.

Your profile is ready, what now?

These come to us to be published. We ensure that your profile is online quickly.

Why this extra step? Yes, we didn't want to do that in the first place. The problem is that as a participant you can't determine when it is published.

To prevent half-finished profiles from appearing on the website, we have built in this intermediate step. After the first publication we change the status of your profile so that you do not need to wait for approval when you change your profile.

Send us an e-mail when your profile is ready so that we can publish it.
